

Defending Pope Pius XII

The defense of Pope Pius XII is an on-going commitment for us, and to further that end we would like our members to know of the great work conducted by Howard Walsh of Keep the Faith. A Catholic League member, whose daughter Mary once worked at the league, Howard has been fighting the disgraceful reception that Pius XII has received by the Yad Vashem Holocaust Memorial in Israel.

Keep the Faith has started a petition drive demanding that Yad Vashem end its hostility to Pius XII. It has also released a CD that contains informative discussions by Father Kenneth Baker and Sister Margherita Marchione; both of them have impeccable credentials and they persuasively make the case that Pius XII did more to save Jews during the Holocaust than any other world leader.
