

DONOHUE'S NEW BOOK NOW AVAILABLE

Bill Donohue's new book, published by Image, was released today. ***The Catholic Advantage: Why Health, Happiness, and Heaven Await the Faithful*** contends that the surest path to achieving the Three H's of health, happiness, and heaven is by adopting the Three B's of beliefs, bonds, and boundaries.

Donohue compares the Catholic Vision to the Secular Vision on the Three B's. Representing the former are practicing Catholics, priests, nuns (especially cloistered nuns), and saints. The latter are represented by celebrities and intellectuals.

Sure to be controversial, Donohue maintains that Catholics are much better positioned to live a healthy and happy life than are agnostics and atheists. More than that, they are more likely—on the basis of charitable giving and altruistic behavior—to make it to heaven.
