

JON STEWART'S VAGINA MANGER SCENE

On last night's edition of "The Daily Show," host Jon Stewart ripped the Fox News Network for not giving air to the "war on women" issue. He then ridiculed the cable station's "war on Christmas," asking, "What can women do to generate the same sense of outrage from Fox as the removal of decorative slightly poisonous holiday plants? Perhaps they could play into the theme?"

At this point, they showed on TV a picture of a naked women with her legs spread apart with a nativity scene ornament in between. Stewart said, "Maybe women could protect their reproductive organs from unwanted medical intrusions with vagina mangers."

Catholic League president Bill Donohue comments as follows:

This unprecedented vulgar assault on Christians cannot stand. If Jon Stewart doesn't apologize, we will mount a boycott of his show's advertisers. And we will enlist our allies in the Protestant, Jewish, Mormon and Muslim communities.
