

JUSTIFYING TRASH

Dr. Paul B. Hurley, the president of Harrisburg Area Community College, believes that an artistic exhibition on his campus that features an image of the Immaculate Heart of Mary superimposed on a nude female body is representative of the “inclusive environment” that exists on his campus. That’s what he told us when we protested. Why not let him know your thoughts on inclusiveness by writing to this genius at One HAAC Drive, Harrisburg, PA 17110. Oh yes, be sure to address him as “Acting President”; if we’re lucky, he won’t get the job.
