U.S. Attorney General Pam Bondi is zeroing in on the medical profession's role in providing services to sexually confused minors. She will focus on "the medical community's fraud and exploitation of parents and children who have fallen prey to radical gender ideology." She said the Department of Justice (DOJ) will not sit back and allow doctors who are "motivated by ideology, profits, or both [to] exploit and mutilate our children."

Bondi is not making a talking point—she means business. She is putting "medical practitioners, hospitals, and clinics on notice" that they will be held accountable for engaging in sex-reassignment surgeries of children. She is also instructing her lawyers to draft legislation that will allow "children and the parents of children whose healthy body parts have been damaged by medical professionals through chemical and surgical mutilation" to take action against them.

What motivated Bondi to act were reports that the Biden-Harris administration aided and abetted the suffering of children by the medical profession, all in the name of providing "gender affirming care." There is nothing noble about sexually reconstructing children. It is a monstrous act done for politics or cash.

The American Medical Association (AMA) is a disgrace. The elites who run it know that sex is binary yet they pretend it is not. It is so far gone that it opposes designating sex on birth certificates as male or female, as if there is some

legitimate third choice.

The American Academy of Pediatrics (AAP) is just as irresponsible. It not only agrees with the AMA, it does not allow doctors to set up a booth at its annual conference challenging its flawed transgender position.

According to the medical watchdog, Do No Harm, between 2019-2023, approximately 14,000 children underwent sex-change operations. This was supported by both the AMA and the AAP.

Attorney General Bondi is right to go after the medical schools as well. Here's a quick look at the elite ones.

Harvard Medical School houses Mass General, the oldest and largest medical school in the country. It specializes in gender-affirming care. It is so specialized that it even offers vocal feminization and masculinization services. They just don't get it: If there is no such thing as a biological man or woman, why are they tinkering with kids' vocal cords to make them sound like a man or a woman? Are they that ideologically drunk that they don't see how this undercuts their position?

Boston Children's Hospital is also affiliated with Harvard Medical School. It is the first pediatric and adolescent transgender health program in the nation, providing "Gender Multispecialty Services" such as "menstrual suppression" and "dilation therapy and care of neovaginas." This is really sick. They are boasting about manipulating the bodies of women to stop their normal cycle of menstruation, and they are also bragging about creating new vaginas for men who hate their bodies.

Johns Hopkins Medicine runs the Emerge Gender and Sexuality Clinic for Children, Adolescents and Young Adults. It starts playing with the bodies of individuals "between the ages of 5 and 25 years." In other words, when Johnny is still on his tricycle, he is a prime candidate for these exploitative

doctors. They even provide “penile construction” for little girls who want to become a boy.

Stanford Medicine not only makes new vaginas for the guys, it removes the ovaries from the gals. In doing so, it works “hand-inhand” with the Stanford LGBTQ+ Health Program. Did they forget the “I”? At least they didn’t forget the +, which covers them.

The Perelman School of Medicine at the University of Pennsylvania offers “facial feminization and facial masculinization surgeries.” Again, these savants are giving away the store—every time they say one’s sex is subjective, they offer proof that it isn’t. Do they teach logic at any of these schools? They sure don’t teach ethics.

Attorney General Pam Bondi should hold all of these predators responsible. They are preying on individuals who suffer from serious mental issues. They are not only injurious to their health, they are anti-science. Bondi should declare a mental health emergency and shut these Frankenstein facilities down ASAP.
