

# RALLY WAS SMASHING SUCCESS

Catholic League president Bill Donohue comments on the Mother Teresa rally:

A estimated crowd of well over 3,000 turned out last night to protest the decision by Empire State Building owner Anthony Malkin not to light the towers blue and white for Mother Teresa. The speakers were exceptional, representing five faith communities and many ethnic affiliations. The NYPD, as usual, was fantastic.

Next week we will post some pictures of the event. We accomplished what we wanted and we are very proud of the overwhelming support we received from many quarters. This was truly a night to remember.
