

TOUCH LEAVES US UNTOUCHED

The movie, *Touch*, tries to capture what Christ would be like if he came back to earth in the 1990s. Viewers are introduced to a Christ who, though capable of miracles, shows no interest in spreading the gospel, perhaps owing to his attraction to girls. We meet nutty Catholics who are prepared to kill for a return to the Latin Mass an array of characters whom most Catholics would find bizarre. In short, just the regular fare we've come to expect.
